Special Permit - Wireless Facility	\$525.00	each	1/1/2019	Resolution No. 18-7593

The non-refundable special permit application fee shall compensate the City for the zoning administrator's preliminary review of a special permit application. The fee for any application for a special permit, or for any application for an administrative permit that is converted to a request for a special permit, shall additionally include the City's reasonable, actual, and verifiable costs and expenses incurred after the zoning administrator's preliminary review related to City staff time, postage and advertising, retention of expert or consultant assistance and legal fees. The applicant shall submit with any special permit application, or at the time of converting an application for an administrative permit to a request for a special permit, an initial deposit of \$1,000.00 for each wireless facility location that is the subject of the application. After completing the preliminary review, the zoning administrator shall notify the applicant, in writing, of any additional information required to complete the review, and of any anticipated extraordinary costs or expenses for additional City staff time, postage and advertising, retention of expert or consultant assistance, or legal fees. If the zoning administrator identifies anticipated costs in excess of the deposit balance after payment of expenses incurred, the deposit shall be replenished or supplemented to the extent necessary to assure payment of the anticipated costs before the City shall incur those anticipated costs and before any further review of the application shall occur. If the deposit exceeds the City's costs and expenses, the excess shall be returned to the applicant upon completion of the application process.

ARTICLE IX: UTILITIES DEPARTMENT

DESCRIPTION	AMOUNT	UNIT	EFF. DATE	ESTABLISHED BY
-------------	--------	------	-----------	----------------

Winter Quarter Average (WQA) shall be defined by adding the metered water consumption on bills rendered during the months of January, February and March and then dividing this sum by the number of billings (three). Each customer's WQA shall be recalculated in April of each year. This WQA shall be utilized for the following months of May through April.

Minimum Winter Quarter Average (MWQA) shall be defined as 6,000 gallons. In those instances where no water consumption data exists for the calculation of a WQA for a customer, the Director of Utilities or designated representative shall determine the most appropriate method of establishing the WQA.

Excess Use Baseline shall equal the greater of 120% of the WQA or 120% of the MWQA.

Excess Use Charge shall apply to: (1) all irrigation meters (2) any use in excess of the excess use baseline. A customer with metered water consumption greater than 22,000,000 gallons per year shall be charged at the Tier 1 rate for all consumption. This customer must have a Water Conservation Plan and the plan must be approved by the Director of Utilities.

General Conditions

- (a) All excavation and closure by Plumbing Contractor. See attached drawing showing minimum excavation dimensions for tapping sleeve and valves on various main sizes (in Utilities Department).

- (b) Water Division shall furnish and mount saddles and corporations for 2" taps and smaller and also furnish roadway boxes for 1.5" and 2" taps.

- (c) Plumbing Contractor shall furnish and mount tapping sleeves and valves for taps larger than 2". Plumbing Contractor shall also furnish roadway boxes for these taps.

- (d) This list will be revised as necessary to reflect current Water Division labor costs to perform the various tap sizes and to reflect current material costs for the 1", 1.5" and 2" taps.
